

YomoMedia is the most complete  
RSS newsreader and podcast player  
available for Windows Phone 7.

# Features

- Stream or download audio and video
- Download under lock screen
- Sync with Google Reader (optional)
- Post to Facebook and Twitter
- Search for & add your own feeds
- Save articles/podcasts for offline viewing
- Add/manage feeds with one touch
- Pre-loaded catalog with hundreds of feeds to choose from
- Adjust article font size
- Change panorama background graphic
- Re-name feed title

# YomoMedia has four main areas in the Panorama view

# Favorites

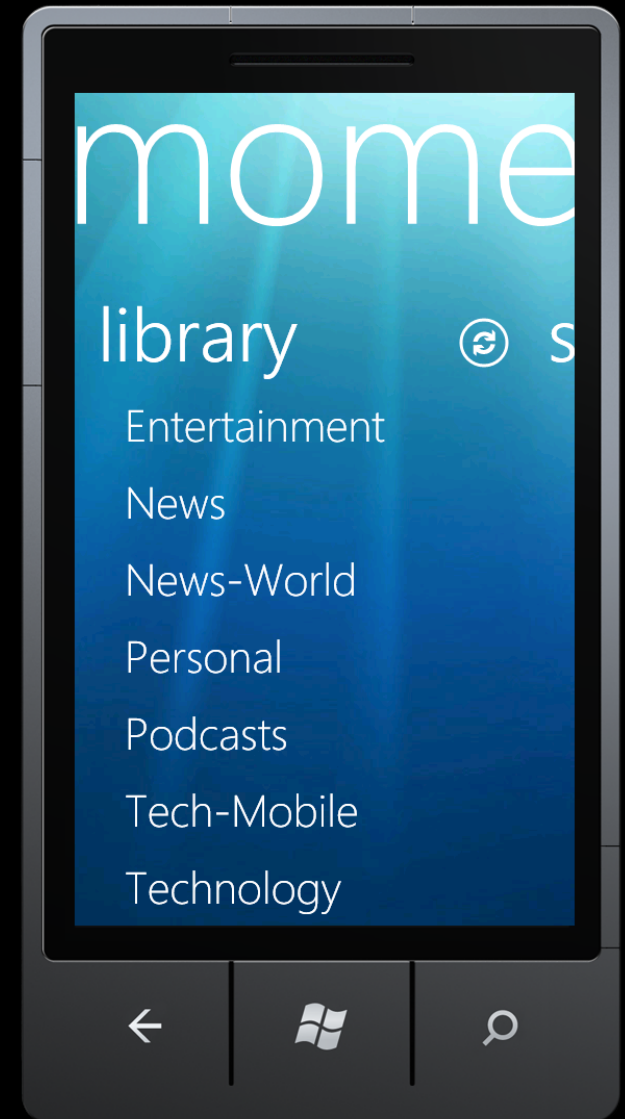

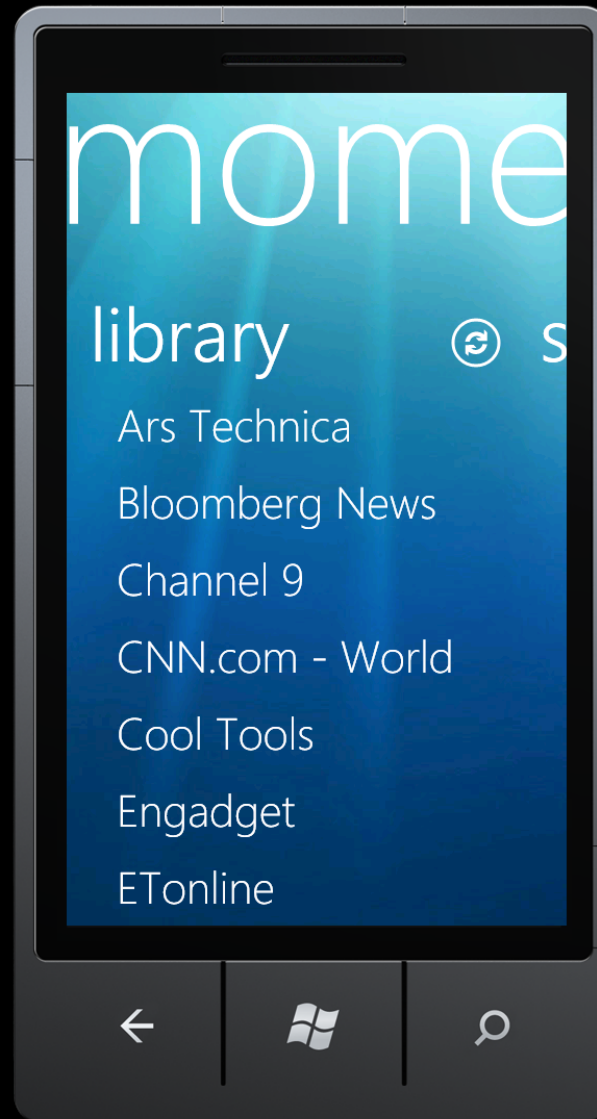

Keep a short list of feeds in your Favorites list for quick access.

# Library

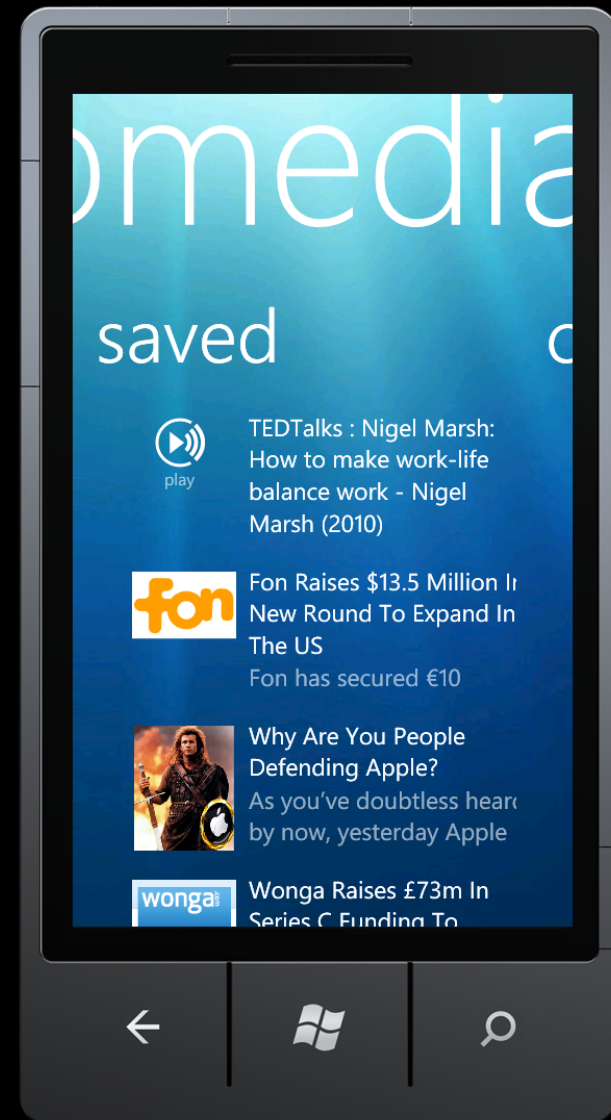

The Library has all the feeds to which you're currently subscribed.

View the Library as an alphabetized list or grouped by category (entertainment, news, technology, etc).

# Saved

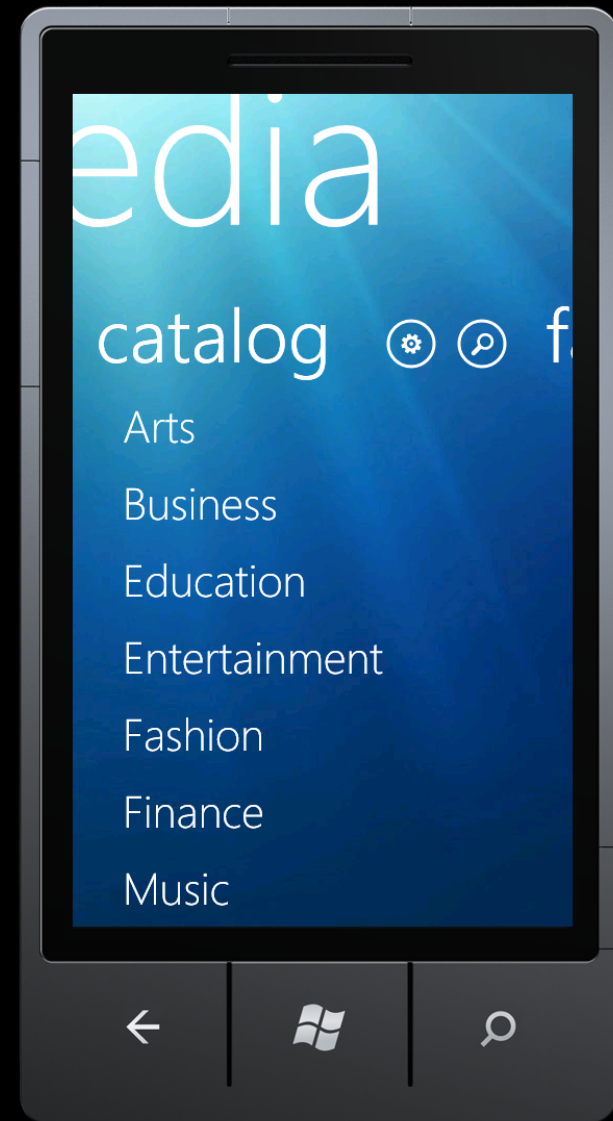

The Saved page keeps saved articles or downloaded audio/video accessible for offline viewing.

# Catalog

The Catalog is filled with hundreds of popular feeds across a wide range of categories. It's the place to discover new content or search the Internet and add your own feeds.

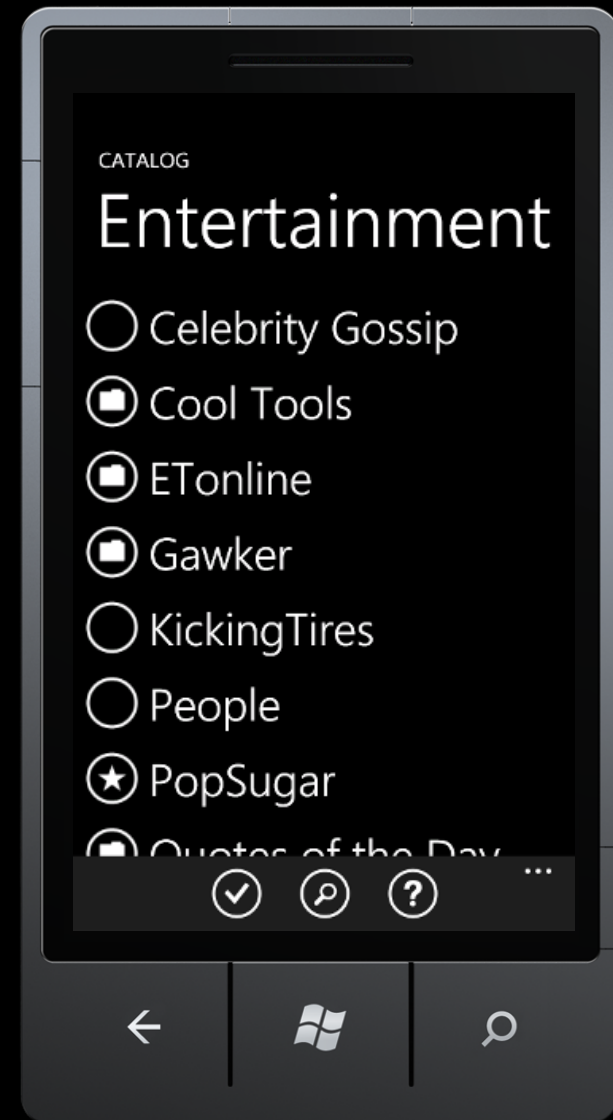

You can also access the application settings here (gear icon).

# Subscribe

Subscribing to feeds in the catalog is extremely quick and easy:

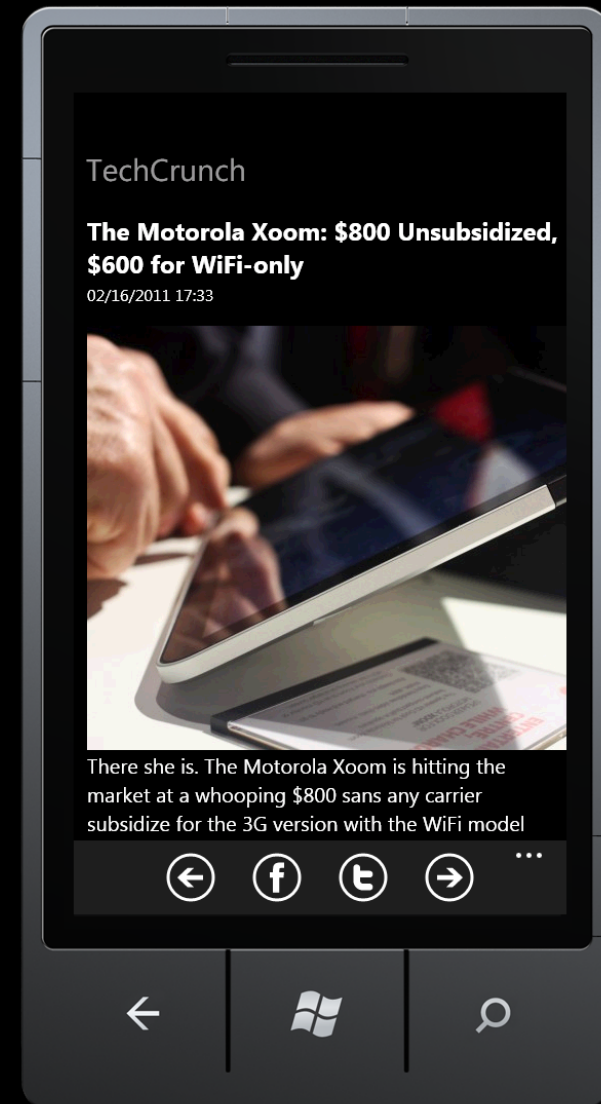

- Tap the circle once to add the feed to your Library (folder).
- Tap it again to add it to your Favorites (star).
- Tap a third time to unsubscribe.

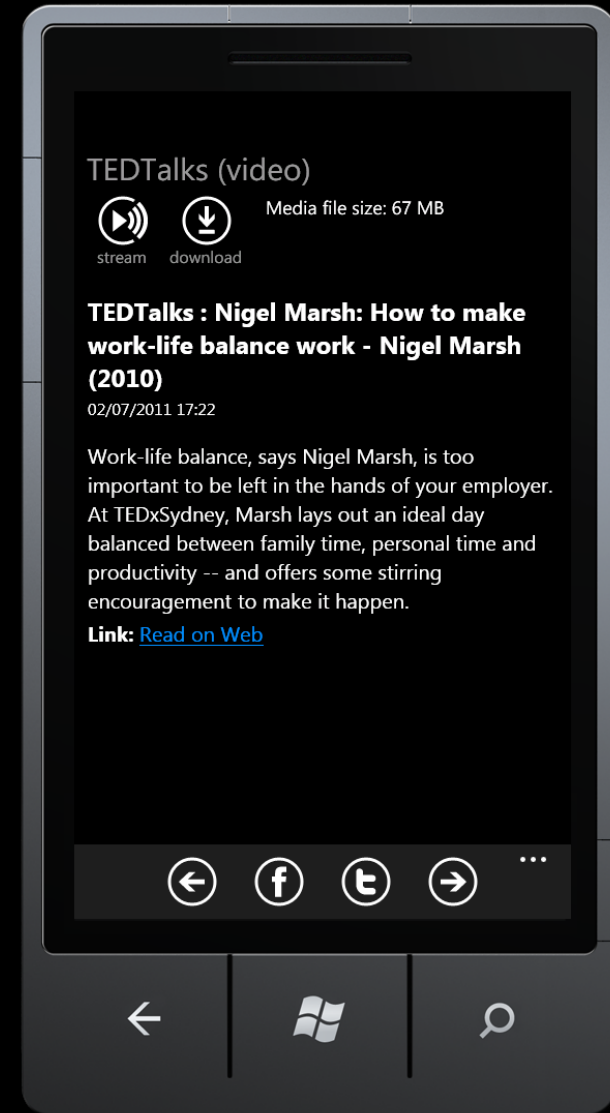

# Viewing Articles

- Scroll smoothly between articles in a feed using the forward and back arrows
- Save or post to Facebook and Twitter

# Viewing Podcasts

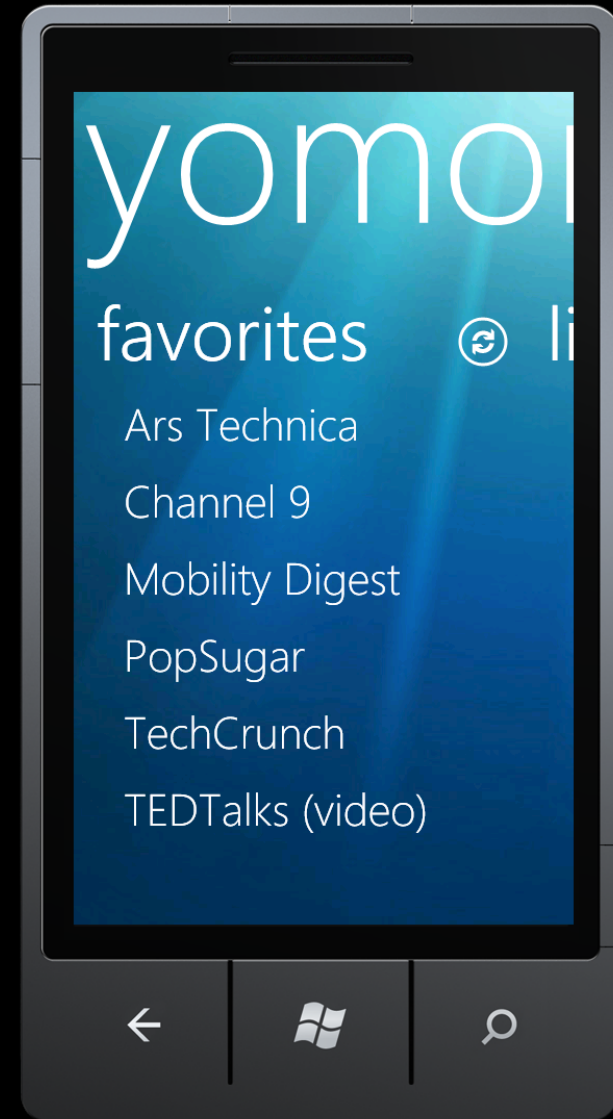

- Stream instantly or download for offline viewing

# Paid or Free

YomoMedia comes in two flavors. We have a full version for \$1.99 and Lite version that's free.

YomoMedia LITE has all the features of our full application but is limited to 6 feeds in your Favorites list and has no Library.

The ability to both stream and download audio/ video, view any text feed and fully customize with the feeds you choose makes YomoMedia the most complete RSS newsreader and podcast player available for Windows Phone 7.
