### About Vpost

Pictures, Video, GPS location, Voice Notes, & Text together at last....with Vpost you capture everything.

It's simple and intuitive interface combines all the functionality of mobiles for posting to the web.

Use Vpost to remember where you parked your car, remember friends & client locations, take note of

great food places, share the sights and sounds of animals, nature & beautiful landscapes...

Vpost can be used for mapping places you've been, house hunting, fishing, hiking, traveling, collaborating, updates, sports, games, parties...basically anything you want.

Vpost changes the way mobile works by pushing data rather than pulling.

Vpost simplifies a complex device and amplifies the devices functionality.

Vpost's are accessible anywhere using the internet and can be integrated into any Web 2.0 systems or enterprise databases.
